

BSRC Inter-Club Match Report - 13th October 2018.

A satisfying entry of 11 teams and 41 shooters attended and the weather was fair and sunny with the exception of a shower in the morning. The usual clubs were represented and it was nice to see Guns & 3 Roses back again, albeit with a different line up this time. Apart for the odd minor 'glitch', the ranges all behaved themselves and we are indebted to John Rossiter and others who managed to get the Deer up and running in time for us.

Back up to full strength, the BSRC ROs reasserted themselves at the top of the podium with a solid 987. Once their dodgy arithmetic had been corrected (B -, must try harder!), it emerged that Aldershot RPC A had managed to squeeze a bit more out of their tank and boost their April score to 897.5 and take 2nd place, their best ever result – congratulations! With James Woodhead on crutches (or maybe they just 'threw' the match to avoid doing the BBQ again) the BASC Misfits slid back to 3rd with 892. Also of note, with the return of John Kynoch who came 4th in the individual aggregate scores, the BSRC Old Stagers rocketed up from 2nd to last in April to 5th – there's life in the old dogs yet!

As regards the average team scores: the Deer was down from 231 to 215; Boar down from 170 to 153 (included fast runs); Stalkers' Test down from 215 to 181; 10m Running Target down from 152 to 143. The overall effect was an decrease in the average team aggregate score from 767 in April this year to 692.

The full team results were, in order:

NB: Deer scores are doubled to roughly equalize the HPS's. The scores shown are the sum of the best or only three in each team.

The top three individual scores (HPS = 420) were 355 (Steve Wallis, BDS), 349 (Darren Cottee, BSRC ROs) and 341.5 (Keith Cox, Aldershot RPC A). In case you were wondering how well you did as an individual, the average scores for the Deer (doubled), Boar, Stalkers' Test and 10m air rifle were 75, 53, 64 and 50 respectively, giving an average individual aggregate score of 242.

I am again indebted to the RO team of Darren Cottee, Alistair Bullen, Paul Ben-Nathan and Jay Jayakumar for making the day run like a well-oiled machine. After having fluffed the ignition (getting too cocky?), Terry's Misfits staged an amazing BBQ rescue and delivered the goods again – at least they are off the hook for the next match. Final thanks to Steve Wallis for staying on to RO the ROs and keep us honest.

Many thanks to all who attended, engaged in the good natured competition and made it a fun day for all.
