

The Chamois

The following rules apply in addition to those detailed in Rules Applicable to all Static Sporting Target Competitions:

Rifles & Ammunition: Any rifle is permitted which meets the BSRC Class B centrefire standard, ammunition must comply with the Range Regulations as they apply from time to time. Those wishing to shoot for 'score only' will be permitted to use any rifle/ammunition combination meeting NRA Range Regulations.

Range and Target Standards: Targets must be of a design approved by the Executive Committee of the BSRC. The target currently approved by the Executive Committee to be used for this discipline is the DJV Chamois. The event is shot at 200m on the NRA Short Siberia Range.

Shooting Position: This event is shot from 2 positions:

- Prone
- Sitting

Course of Fire: Shooters will be required to fire a total of 10 rounds in two series of 5 shots, no sighters permitted, at a DJV Chamois target.

The first series of 5 shots will be from the prone position with the only rest permitted being a small backpack or similar bag under the fore end of the rifle – front bags, bipods or other front rests will not be permitted.

The second series of 5 shots will be taken from a sitting position where the shooter may use a single stick – of the type that might be used to steady yourself when walking around the side of a mountain looking for Chamois to shoot!

There is no time limit for completing either 5 shot series but shooters will be expected to take a shot on a single breath once the rifle is in the aim.
