

Time Limit Range

The general limitations on the Time Limit range are:

Calibre .455"

Muzzle Velocity 2150 ft/sec

Muzzle Energy 1496 ft/lbs

The use of the Time Limit range is confined to air rifles and pistols, .22 rim fire and gallery rifles, and centre fire gallery rifles as defined by the NRA.

Shotgun, within Gallery Rifle Muzzle Velocity and Muzzle Energy limits, may be used with the prior permission of the BSRC Chairman.

The use of .17HMR is expressly prohibited as it exceeds the range muzzle velocity limitation.
